KIN-BALL® SPORT WORLD CUP 2015

QUESTIONS & ANSWERS

Is it possible to participate in both events (KIN-BALL® sport World Cup 2015 and KIN-BALL® sport World Club Championship 2015)?

A player can only register in one team no matter which event it takes part in. A player on a National Team cannot play in the Club Championship and the opposite applies as well because of potential scheduling problems.

The World Club Championship games will be played in the morning and early afternoon while the players from the National Teams will have their training time. Accommodating the players would then become a tremendous stress on the organization which will have other things to think of. It might also mean delays since the halls used for the training time of the National teams are away from the one where the games will be played.

Regarding the coaching staff from the National teams, even if we would recommend them not to play, it is allowed. Therefore if a schedule conflict happens, the organization will not be able to accommodate and the person will have to make a choice.

On the other hand, the IKBF wants to encourage a strong proximity between the National Teams members and the Club Championship participants.

Consequently, a National Team member (coaches & players) can act as a coach, assistant coach or counselor for a team taking part in the Club Championship. Knowing that (one more time), if a schedule conflict happens, the organization will not be able to accommodate them.

Each federation sending National Teams can make their own rules about what is expected from National Teams members' and what is allowed.

QUESTIONS & ANSWERS

Will the games of both tournaments be happening at the same location?

Yes the games of both events will be happening in the same sport hall on different times of the day:

**World Club Championship games will be held from 8:00 am to 13:30.
World Cup games will be held from 14:00 to 22:00.**

Training sessions for National Teams will be held in other locations during World Club Championship games.

What is the deadline date to register a team?

The deadline date to register a team and be able to get the prices listed in the invitation document is May 15th. After that date, it will still be possible to register a team but the price for the package that includes food, hotel and local transportation might be increased. By that date teams must send their inscription document (including the names, age and gender of the players) and pay the team registration fee.

A team is not considered properly registered until payment is done and the bank confirmation receipt is sent to the organization.

The payment of the registration price per person will have to be completed by June 15th.

Can participants book lunch on Monday August 17th?

Yes, participants can have lunch in the hotel that day with an extra cost of 10 €.
